

## Suseja

📍 In Jēkabpils region – 49 km, in Aizkraukle region – 58 km, total in both regions – 107 km.

The Suseja River crosses two counties and offers various routes suitable for both experienced boaters and beginners. Boating on the Suseja River, you can enjoy vast rural landscapes and mysterious forests. The river offers both rapids and calm sections, which allow for both active sports and relaxation. There are several historical sites and manors on the banks of the Suseja River, which makes this route especially interesting for lovers of culture and history. A more extreme trip with log jams is from Elkšņi to Cīruļi. Meanwhile, the section of the river from Nereta to Erberģe is suitable for those who enjoy peaceful relaxation. It should be noted that by flooding the Nereta reservoir on the Suseja River, a small HPP has been created in Nereta and two more small HPPs are located downstream of Erberģe.

### Access to the river

- 1 Dūņu Bridge. 📍 📍 📍 📍 W 600 m 56.142468, 25.786191
